2nd cadaver course
Local, Regional and Distant flaps
Brachial Plexus Surgery
Introduction to Microsurgery

JIPMER

7th & 8th March 2020

Venue: Anatomy Dissection Hall, JIPMER Academic Centre

Course Chairman

Dr Devi Prasad Mohapatra
HOD, Dept of Plastic Surgery, JIPMER
Course Co-Chairman

Dr Sivakumar M
HOD, Dept of Anatomy, JIPMER
Course Faculty

Dr Ravi Kumar Chittoria,
Dept of Plastic Surgery, JIPMER

Dr Dinesh Kumar S,
Dept of Plastic Surgery, JIPMER

Dr Friji M T,
Dept of Plastic Surgery, JIPMER

Dr Rajasekhar.S.S.S.N,
Dept of Anatomy, JIPMER

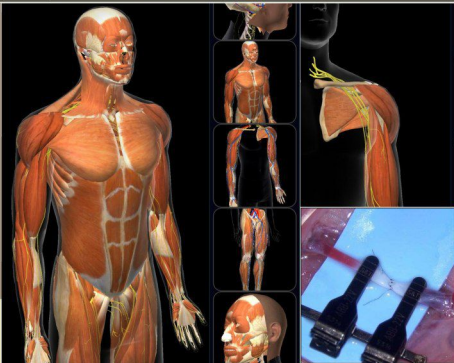

Dr V Raguveer,
HOD, Dept of Plastic Surgery GH, Puducherry

Dr Elan Kumar Subbarayan
Dept of Plastic Surgery, KIMCH, Coimbatore

Dr Meghana Bagalkotkar,
Dept of Plastic Surgery, MGMCR, Puducherry

Dr Vijayraghavan,
Dept of Plastic Surgery, SMVMCH, Puducherry

Dr Vijay Jagannathan,
Dept of Plastic Surgery, PIMS, Puducherry

Registration

For Hands-on participation

	Day 1	Day 2
Individual course	Rs 3000/-	Rs 3000/-
Combined Day 1+ Day 2	Rs 5000/-	

For Observer only

Combined Day 1+ Day 2	Rs 3000/-
-----------------------	-----------

Registration includes course fees, registration kit, tea & snacks, lunch, course certificate & complementary course manual

For Registration

E-mail:

jipmerplasticcourse@gmail.com

Tel: 9433-2297377

Mobile: 9439491269

Whatsapp: 9439491269

Spot payment (cash only) accepted

Pre-registration Mandatory

Last date of registration 02/03/2020

Number of seats limited

Flaps dissection course } Total 40 Seats
Brachial plexus course } Hands-on 18 Participants

Introduction to Microsurgery Course Total 40 Seats
Hands-on 20 Participants

Course Highlights

Flap Dissection Course

DAY 1
Demonstration followed by hands on practice of most commonly used flaps

- Flaps in head and neck reconstruction
- Flaps of the upper limb
- Flaps of the lower limb
- Geometric flaps
- Workhorse Microvascular flaps

Brachial plexus course

DAY 2
Demonstration followed by hands on practice of Brachial Plexus procedures

- Surgical anatomy of Brachial plexus
- Approaches to Brachial plexus
- Neurotization procedures in Brachial Plexus

Introduction to Microsurgery Course

DAY 2
Demonstration followed by hands on practice of Microsurgery techniques

- Microsurgery instruments overview
- Techniques of vascular microsurgery
- Techniques of microvascular anastomoses

Who can participate
Early career surgeons with an interest in reconstruction, Trainees in Plastic Surgery, General surgery, Oral and Maxillofacial Surgery, ENT, Orthopedics, Dermatology, Anatomy, Neurosurgery, Surgical Oncology

2nd cadaver course
Local, Regional and Distant flaps
Brachial Plexus Surgery
Introduction to Microsurgery

7th & 8th March 2020

Venue: Anatomy Dissection Hall, JIPMER Academic Centre

JIPMER

COURSE OBJECTIVES

D
A
Y 1

Flap dissection course

At the end of the course, participants will

1. Know about different flaps in clinical practice
2. Be familiar with surgical anatomy of different flaps used in clinical practice
3. Be able to independently harvest routine flaps used in clinical practice
4. Be able to independently carry out geometric flaps

D
A
Y 2

Brachial plexus course

At the end of the course, participants will

1. Be familiar with surgical anatomy of brachial plexus
2. Will understand about different surgical approaches to brachial plexus
3. Will understand the principles for reconstruction in brachial plexus injuries
4. Be able to independently expose nerves for neurotization/ nerve transfer procedures

D
A
Y 2

Introduction to Microsurgery course

At the end of the course, participants will

1. Be familiar with instrumentation used in microsurgical practice
2. Will understand the principles for microsurgical reconstruction
3. Be able to independently carry out arterial, venous and neural repairs under a operating microscope

To register, please send the following details by email to jipmerplasticcourse@gmail.com or Whatsapp to 9439391269
