PAYMENT FAILURE CASES

The Reason(s) for Payment Failure:

1. Bad internet connection
2. Authorization failure
3. Authentication failure – Wrong details entered
4. Delayed notification
5. Payment gateway failure

When a payment fails while paying the application fees, there could be two cases

1. The amount is not debited –

In this case, you might receive a message from your bank that the payment was not be processed.

2. The amount is debited –

In this case, you might receive a message from your bank that the payment was processed and the amount will be debited (a transaction fails on the receiver's side, but the payment gets debited from the user's account). In such cases, the amount gets automatically refunded by the bank within 45 working days. Most banks don't notify users in case of refunds, so be sure to check your statement to ensure that the refund has come.
